MATERIAL TRANSMITTED

GP23-1, "Toxic Substances Registry System Index of Material Safety Data Sheets," Biomedical Operations Office, October, 1996

*** GP23-1 via the Internet ***

The KSC MSDS Index is now available in electronic form at http://atlas.ksc.nasa.gov/msds

The index should be accessible to all NASA Centers and onsite contractors, as well as to CCAS and the offsite facilities of many onsite contractors. This is accomplished by providing access to computers in a list of IP address domains. If you receive a message saying that access is denied, contact your web administrator and request that your domain be added to the "global NASA .htaccess list", or you may send a message to woodardd@lahal.ksc.nasa.gov indicating your organization and IP address.

The Department of Defense, Defense Logisticcs Agency's Hazardous Materials Information System (HMIS) is available at the same Internet location.

If you determine that Internet access to GP23-1 is suitable for your purposes, you may cancel your paper copy of GP23-1 by telephone at (407) 867-9014, extension 293, by KSC mail to TSRS Administrator at BOC-022, or by e-mail to Dorothy.Churchwell-1@kmail.ksc.nasa.gov.

*** Customer Survey ***
